

# We'll be in touch.

## **We are focused on providing your child with the best care available.**

That's why your physician has spoken to someone at Children's TiPS (Telephonic Psychiatric Consultation Service).

In the next few days, you will receive a follow-up call from a Children's TiPS care coordinator. Care coordination is a voluntary service that can help in connecting you to the following services:

- Available community resources
- Short-term transitional care
- Scheduling a face-to-face one time evaluation

**If you have any concerns, please feel free to discuss them with your child's physician or the TiPS care coordination team.**
