

**Pinnacle Health System
Occupational Therapy Department
Criteria for Student Project**

1. The project must be relevant to the population being served and useful to the occupational therapy department. Suggestions: activity equipment, patient education handouts, program development.
2. The project must be approved by the clinical supervisor in advance.
3. The project must incorporate OT theory and principles.
4. The student should provide 2-3 juried articles to demonstrate evidence-based practice.
5. The student will present the project to the OT staff, provide written instructions for proper use and provide a rationale for the project chosen.
6. OPTIONAL: The student will complete an activity analysis of the project.
