

## **UPMC Hamot Emergency Medical Student Rotation**

### **Rules:**

Show up on time to designated shifts

Arrive in the ER to be matched with a PGY 2 or 3 EM resident

Gather history, perform physical and formulate a plan and differential diagnosis

Present to your resident or attending preceptor

Take ownership of the patient and perform rechecks and update patient on lab/rads findings

Hand out evaluation sheets to at least 4-5 preceptors

Attend Wednesday conferences (typically 7a-12p)

### **Review material:**

Blueprints Emergency Medicine

### **Case Presentation:**

Present an interesting case and give background information/teaching points about the case

This should be performed during the last Wednesday of your rotation

Please speak with chief about scheduling time

### **Test:**

Administered at the end of the rotation by Annmarie Kutz

40 question multiple choice test based mainly off blueprints readings

### **Grading:**

50% based on 4 written evaluations by the residents/attending

20% based on approximately 10 minute case presentation

30% based on 40 questions end of rotation test
