Duquesne/Munhall/west Mifflin/Homestead

For You. For Your Family.

There are so many benefits to having a primary care physician.

It's one thing to know where to find a doctor. It's another to have a doctor who knows you and your family — an experienced doctor who's up-to-date on you and your family's medical history, health care goals, and concerns. The more your doctor knows about you, the better he or she is able to address your medical needs today, and respond to your health care changes tomorrow. It's about quality of care and peace of mind. And when you select a family medicine or internal medicine doctor, that's what you get. The primary care physicians listed in this guide have access to UPMC McKeesport and the wide range of resources of the UPMC health care network.

Benefits include:

- Compassionate care for chronic and ongoing conditions.
- Freedom to choose UPMC inpatient and outpatient services.
- In-office services from routine check-ups to x-rays and blood tests.
- Convenient locations throughout your community.
- Extended hours at many practices.
- Most medical insurances accepted.
