

## Our Mission and Vision

### Our Mission

UPMC's mission is to serve our community by providing outstanding patient care and to shape tomorrow's health system through clinical and technological innovation, research, and education.

### Our Vision

UPMC will lead the transformation of health care. The UPMC model will be nationally recognized for redefining health care by:

- Putting our patients, health plan members, employees, and community at the center of everything we do and creating a model that ensures that every patient gets the right care, in the right way, at the right time, every time.
- Harnessing our integrated capabilities to deliver both superb state-of-the-art care to our patients and high value to our stakeholders
- Employing our partnership with the University of Pittsburgh to advance the understanding of disease, its prevention, treatment and cure.
- Serving the underserved and disadvantaged, and advancing excellence and innovation throughout health care.
- Fueling the development of new businesses globally that are consistent with our mission as an ongoing catalyst and driver of economic development for the benefit of the residents of the region.

## Our Values

### Quality and safety

We create a safe environment where quality is our guiding principle.

### Dignity and respect

We treat all individuals with dignity and respect.

### Caring and listening

We listen to and care for our patients, our health plan members, our fellow employees, our physicians, and our community.

### Responsibility and integrity

We perform our work with the highest levels of responsibility and integrity.

### Excellence and innovation

We think creatively and build excellence into everything that we do.

## Our Signature Services

### Family Medicine

At UPMC St. Margaret, our focus is your overall health and wellness. That's why we encourage you and your family to coordinate your care — from basic health and preventative medicine to specialty care and inpatient services — with a primary care physician (PCP) or family doctor. Our primary care team includes more than 80 Family Medicine and Internal Medicine physicians who staff 22 convenient on-campus and community locations. And when you need specialized treatment, our PCPs are a gateway to care with UPMC's nationally ranked surgeons, specialists, and health centers.

### Orthopaedics

UPMC St. Margaret's reputation for excellence in orthopaedics draws patients from the tristate area and beyond. Orthopaedic surgeons specialize in foot and ankle surgery, hand surgery, traditional and minimally invasive total joint replacement (hip and knee), spine surgery, and sports medicine.

### General Surgery

The Department of General Surgery provides patients with access to world-class surgical services while remaining close to home. Our board-certified general surgeons offer their expertise for a wide range of procedures including, but not limited to, complex biopsies, hernia repair, and appendix or gallbladder removal. Our experts utilize UPMC St. Margaret's state-of-the-art technology, and have access to robotic assisted surgery.

### Geriatrics

The Geriatric Care Center at UPMC St. Margaret provides geriatric patients access to a wide range of services including primary care, psychiatric care, and social work. These services are provided by specialty trained geriatric providers. We serve patients at two locations, on campus at UPMC St. Margaret and in Oakmont at The Willows.

### UPMC Hillman Cancer Center

UPMC Hillman Cancer Center at UPMC St. Margaret, part of the UPMC Hillman Cancer Center community network, allows patients to receive the highest level of cancer care without having to leave their communities. The center is staffed with a team of skilled, experienced cancer care professionals dedicated to the comprehensive support and treatment of people with cancer. With support from the University of Pittsburgh Cancer Institute and UPMC, these specialists bring the latest advances in cancer prevention, detection, diagnosis, and treatment.

### Family Health Centers

UPMC St. Margaret's three family health centers, located in the neighborhoods of Lawrenceville, Bloomfield-Garfield, and New Kensington, are committed to improving the health of the communities they serve by providing primary medical care, behavioral health services, preventive health care, disease management, and health related education to all patients, including the medically underserved. Services include pediatric-to-geriatric care; laboratory services; school and work physicals; hearing and vision testing; obstetrics, gynecology, and family planning; on-site x-rays; diabetes education and management; and sports medicine and treatment of minor injuries.

### UPMC St. Margaret Harmar Outpatient Center

The UPMC St. Margaret Harmar Outpatient Center provides a full range of outpatient surgical and gastrointestinal procedures, using the same cutting edge equipment, technology, and quality of care found at UPMC St. Margaret. The center is conveniently located off Route 28 as well as the Harmarville exit of the Pennsylvania Turnpike.

Some of the surgical procedures performed at the Harmar Outpatient Center include:

- General
- Gynecologic
- Ophthalmologic
- Oral Maxillofacial
- Orthopaedic
- Plastic
