UPMC Adult Spina Bifida Clinic

The only one of its kind in the region, the UPMC Adult Spina Bifida Clinic combines a variety of specialties to provide comprehensive, up-to-date care for adult patients. Our physical medicine and rehabilitation experts partner with urologists, neurosurgeons, and other specialty providers to provide coordinated care.

The UPMC Adult Spina Bifida Clinic provides coordinated care among several departments in an effort to create a successful patient experience. Our program is a collaborative effort among Physical Medicine and Rehabilitation, Neurosurgery, and Urology. Learn more about what makes our program unique and effective.

UPMC policy prohibits discrimination or harassment on the basis of race, color, religion, ancestry, national origin, age, sex, genetics, sexual orientation, gender identity, marital status, familial status, disability, veteran status, or any other legally protected group status. Further, UPMC will continue to support and promote equal employment opportunity, human dignity, and racial, ethnic, and cultural diversity. This policy applies to admissions, employment, and access to and treatment in UPMC programs and activities. This commitment is made by UPMC in accordance with federal, state, and/or local laws and regulations.
