Code: Z87.891 Personal History of Nicotine Use and Dependence and CPT G0297

***Check one:**

- INITIAL LDCT LUNG CANCER SCREENING SUBSEQUENT LDCT LUNG CANCER SCREENING

***Required: NPI OF ORDERING PHYSICIAN:** _____

***Must attest to all of the following:**

- Patient is between 55 - 77 years of age Patient is asymptomatic, no signs of lung cancer. No hemoptysis or chest pain.

Current Smoking Status (one pack year = smoking one pack per day for a year)

- Current Smoker** _____ # of pack years **OR** **Former Smoker** _____ # of pack years Year quit smoking _____

If this is the INITIAL lung cancer screening visit, the beneficiary must receive a written order for LDCT lung cancer screening DURING a lung cancer screening counseling and shared decision making visit by a physician, physician assistant, nurse practitioner, or clinical nurse specialist which must include the following elements:

***IF INITIAL LDCT LUNG CANCER SCREENING, I attest to completing all of the following:**

- Determines if patient meets eligibility requirements
- Shared decision making, including the use of one or more decision aids, to include benefits and harms of screening, follow-up diagnostic testing, over-diagnosis, false positive rate, and total radiation exposure.
- Counseling on the importance of adherence to annual lung cancer LDCT screening, impact of comorbidities and ability or willingness to undergo diagnosis and treatment
- Counseling on the importance of maintaining cigarette smoking abstinence if former smoker; or the importance of smoking cessation if current smoker and, if appropriate, furnishing of information about tobacco cessation interventions.

***Note: For an isolated shared decision making visit, code G0296 can be billed. If the shared decision making visit is in conjunction with an Evaluation and Management (E&M) visit add modifier 25.**
